## Cleaning guidelines

### In general:

- Dust and wipe all surfaces (woodwork, lamps, window frames, doors etc)
- Vacuum and mop all floors
- Clean the windows on the inside, in between and on the outside
- Clean behind the radiators
- Vacuum clean the mattress and under it
- Clean the sockets and the switches
- Clean the lamps
- Clean the shelves, drawers and closets on the inside and out, as well as behind
- If you have extra storage area, be sure to clean it as well
- Clean the windowsill

### Bathroom (if private):

- Clean the walls and the floor
- Empty and clean the bathroom cabinet, polish the mirror
- Clean the toilet, also inside with the toilet-brush
- Clean the sink. Do not forget to make sure the drain is not blocked!
- Clean the soap holder in the shower
- Clean shower and/or bathtub
- Do not forget to clear and clean the drain!

### Kitchen/kitchenette (if private/or your part of it):

- Clean the refrigerator and freezer (defrost the freezer but be careful to wipe away all excess water). Do not use any tool to remove the ice! Let it melt
- Clean the cupboards and drawers and walls
- Clean the stove and oven, don't forget to clean behind the stove as well. If there are black marks a good idea is to use spray for cleaning out ovens ( "ugnsrengöring")
- Wash up all dishes, cutlery and cooking implements  
Throw away all food left-overs

MAKE SURE ALL LIGHT BULBS ARE FUNCTIONING!

MAKE SURE THE BATTERY TO THE FIRE ALARM IS WORKING!

### SUITABLE CLEANING AGENTS/DETERGENT TO USE:

For cleaning inside the oven. (Not for microwave oven.)

For cleaning and polishing windows and mirrors.
