

Quick guide for Internet connection

If internet expenses are not included in the rent, each tenant must arrange their own subscription. If you do not have a Swedish personal identity number, Bredband2 is a good option.

Please follow the instructions below:

1. Go to the contact form:
<https://www.bredband2.com/privat/kundservice/kontakta-oss/>
2. Fill in the form and write the following information in your message:
 - Your full name
 - Your full address (for example: Generatorgatan 1)
 - Your official apartment number (4 digits, for example 1402)
 - Your desired internet speed
 - Your personal number. If you do not have a Swedish personal identity number, you can enter your passport number instead.
3. Please note that it is not possible to order a router together with the subscription if you do not have a Swedish personal identity number. You can instead bring your own router or purchase one separately.

Homepage: www.bredband2.com

(It is not possible to order an internet subscription directly on their website without a Swedish personal identity number.)
